What time signature is it? ANSWERS

Each measure is written without its time signature and is full of tuplets. Simplify each group to the note value it equals and write in the box the time signature that belongs to it. A 4/4 can always also be written as 2/2 (cut time), and a 2/4 as 4/8: in both cases, either time signature is correct.

1. Easy (one beat with a group)

1

6/8

2

2/4 / 4/8

3
