Identify key signatures ANSWERS

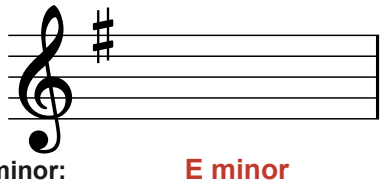

Under each key signature, write the key you are asked for: **major** or **minor**. Look at the clef first: not all of them are treble clef.

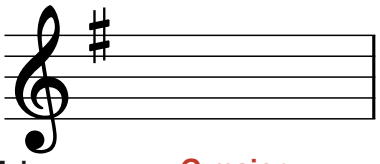

The first key signatures have few accidentals and are in treble clef; then the accidentals increase and the bass clef appears.

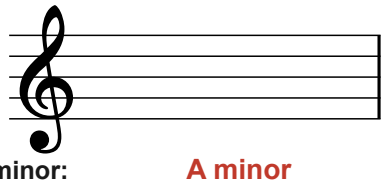

1

Major: B♭ major

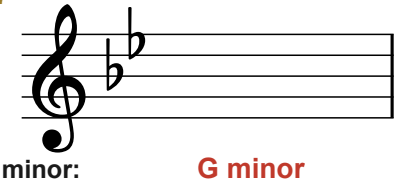

2

minor: D minor

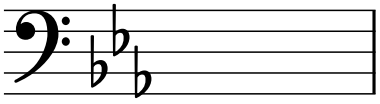

3

minor: B minor

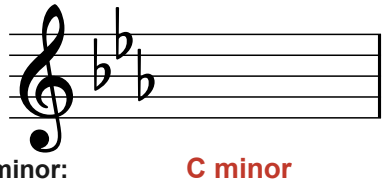

4

minor: E minor

5

Major: G major
